

Established in 1987, the Council represents the interests of machine stress rated lumber producers in the manufacturing, marketing, promotion, utilization, and technical aspects of MSR and MEL lumber.

Including the largest MSR lumber producers in North America, our association serves an industry that produces more than 1 billion board feet of MSR lumber annually in North America. Emphasizing its higher quality, longer spans, and better lifetime performance, we seek to promote the benefits of using MSR lumber and expand the markets for its use.

The Council invites all MSR lumber producers and equipment manufacturers to join as Regular members. Suppliers, customers, and professionals may choose Associate or Limited Associate membership. See the chart below for the services and benefits of each membership category.

<i>Benefits of Membership</i>	Regular	Associate	Limited Associate
Voting membership	✓		
Company name on MSRLPC literature <i>NEW</i>	✓		
Company link on MSRLPC website	✓	✓
